

2nd Print Run - July 2001

The second imprint of the guide is almost identical to the first, with no significant changes to the technical content. Very minor alterations have been made as follows:

Changes from the First Printing.

Cover: Addition of the words “including Water Byelaws 2000 (Scotland)” under the title and on the spine. (Addition of “Second Edition” on the foot of the cover).

Page ii: Added “Reprinted June 2001”

Page 4.13: Amended diagram **G10.4b and c** to move the position of the stop valves outside the boundary of the individual flats.

Page 6.37 and 38: Exchanged the position of the two paragraphs beginning “The Water Supply Industry deems” and “Where a combination tap or mixer”

Page 6.41: Clause R15.16: sub paragraph “Fluid category 5 – Applications”: Correction of typographical error in line 4 ‘launderies’ altered to ‘laundries’. Added the text “For further information see WRAS Guidance 9-04-01”

Page 7.3: Schedule 2, Clause 16 (2): Correction of typographical error in line 4 – ‘value’ altered to ‘valve’

Page 6.48 and 49: Diagrams **R15.27b and c:** amended the colour of water in the storage cisterns to indicate it is not considered suitable for domestic purposes (drinking, food production etc.).

Page 6.52: Diagrams **R15.30g and j:** amended the colour of water in the storage cisterns to indicate it is not considered suitable for domestic purposes (drinking, food production etc.).

Index: Enlarged from 4½ pages to 11½ pages to improve the content.
